Supplemental Information Disclosure Statement

Commissioner for Patents

P. O. Box 1450

Alexandria, VA 22313

Sir:

In response to the Office Action of 02/20/2007, and pursuant to our duties
under 37 CFR 1.196 and 1.197, we disclose the following prior art reference:

**DE 1 681 008, dated 13 JULY 1954, of which Friedrich
Heidel is the inventor, entitled "Vorrichtung zum Antrieb
von Anhängerwagen".**

This Supplemental IDS should cure the problem identified by the Examiner in the
previously filed IDS. We note that the above reference itself was previously sent by

the Applicant to the USPTO and already exists in the electronic patent file. We refer the Examiner to that document instead of transmitting a second copy.
